Conscientiousness: 60%

A score around 40 suggests a casual, flexible approach to work. You're spontaneous and adaptable, but may struggle with long-term planning or organization. You work best in dynamic, fast-changing environments without strict routines. You may excel in dynamic and flexible roles such as creative design, journalism, or event planning, which allow for spontaneity and adaptability.

Extraversion: 60%

A score around 40 suggests you lean toward introversion. You may enjoy social contact in small doses, but prefer working independently or in quiet environments. You're thoughtful, reflective, and tend to listen more than speak. You may excel in quieter, more introspective roles such as software development, research, or technical writing.

Agreeableness: 60%

A score around 40 suggests a pragmatic and assertive approach to relationships. You value fairness over niceness and may challenge ideas directly. You're more task-focused than people-pleasing. You may excel in pragmatic, task-focused careers like business consulting, logistics, or software engineering.

Neuroticism: 60%

A score around 40 reflects emotional balance. You're calm under normal stress but may feel pressure in extreme cases. You're stable and realistic, with a healthy level of sensitivity. You may excel in balanced roles requiring calmness and focus, such as engineering, finance, or nursing.
